

## *Programme Area Summary*

**Country:** Zambia

**Programme Area:** Participation and Governance 2005 - 2009

### **What is the aim of the programme area?**

To contribute to the improved welfare of women, youth and children by enabling them to be involved in decisions that affect their lives.

### **Why is VSO working in that particular Programme Area and region?**

International and even national development agencies shun working with district councils because they are often resource challenged in terms of both human and financial resources. VSO Zambia has chosen to work with councils because unlike central government councils are closer to the most disadvantaged and marginalised groups

### **Key beneficiaries and partners**

Key beneficiaries are women, youth and children. Key partners include local authorities (councils), civil society organisations (CSOs), youth organisations and government (decentralisation secretariat, Ministry Of Youth, Sports & Child Development )

### **Key objectives of the programme and the cross-cutting**

1. Support the establishment and strengthening of decentralised district structures
2. Enhance citizen ability - especially people living with HIV and AIDS, women, youth and children - to know and claim their rights
3. Increase women and youth participation and leadership at strategic decision-making levels.

### **What makes VSO's work in this programme area special?**

The challenge remains to work with government to develop the decentralised structures, while simultaneously increasing citizens' awareness of their rights. Women's leadership skills in particular need strengthening. Such capacity building will shift disadvantaged citizens, especially women, from 'beneficiary' or passive recipients of development to active agents of change, able to challenge the culture of exclusion, co-direct their own development, and call for accountability from the government.
